

New Cobb County IVR System

The inspection scheduling phone number is – 770-528-2073.

Please be advised that there have been several inspection codes dropped and combined with other codes. All Electrical codes that included Pool should now be requested as a regular Electrical inspection. Building Retaining Walls should be requested as a Building Final and Decks should either be requested as Building Framing or Building Final depending upon the job. Starting with permits purchased on or after July 1, 2011, all new homes will be required to have a Building Insulation Inspection after the Framing has passed and prior to any Final inspections. Should you have any questions, please contact the inspection office.

Thank you, Cobb County Community Development Agency
